Morgan Brookes - "Watching and capturing everything from birds and owls to horses was astonishing. Most of the photos are breathing taking and incredibly sirenic."

In Month day year, Brookes had the opportunity to capture the view of a newly founded Park State Park in City, State and the wildlife that surrounds it. In addition to becoming a professional wildlife photographer at the new park, she owns a personal company for photography. Her work has been seen in Nature magazine, Name Magazine and advertisements, posters and products for Park Stake Park.

Brookes has been going to Camera Store since 2021 and is really pleased with there service. Her favorite purchased item is the A6600 Premium E-Mount APS-C Camera with the Canon EF 24-70mm f/2.8L USM Lens.

She has been to over 103 events through her company and has worked in the industry of photography for over 12 years. Her favorite things to capture is wildlife and still shots.

Follow Brooks on Instagram at @morganbrooksphotography37 or Twitter @morganbrooksphotography18. To find her personal company or for hire, visit morganbrooks.photography.
